Steam blender
BL1060HGD

Oursson baby blender-steamer will help young mothers to prepare baby food traditional way or "cold" way. Thanks to an automenu you can choose and create an individual diet for your baby, free from food additives. It is easy to use the device, it can steam, grind the ingredients and cooked meals, cook porridge and soups, heat up. The compact size of the device allows you to take it anywhere, it won't be a burden and you'll know exactly what your child is eating!
