FULL PALETTE OF FLAVORS

Blender Oursson BL0642G – electrical appliance designed for grinding food. Feature of this blender is its design: a cup with blade knife is placed on a base with engine inside. It can be used to prepare puree and desserts, crush ice, whisk and mix drinks. Rotary switch with buttons will help you select the desired grinding program, and set the required speed from 1 to 7 or select turbo mix. Easy-cleaning function will make maintenance of the device easier and convenient.
