Milk Frother **MF2005**

bon appétit

Milk Frother 2005 from Oursson – is a modern and useful device on your kitchen. With it, you will be able to prepare milk foam for the morning cappuccino and different drinks from delicious hot cocoa for kids to aromatic mulled wine, grog or punch for adults. The device has 3 programs: cold milk foaming, foaming with heating and heating mode. The set includes two nozzles: for foaming and for stirring. Thanks to an inner non-stick coating, the milk does not stick and cleaning it is easy and enjoyable.
