Cold press juice maker JM8002 allows you to extract juice from fruit, vegetables, nuts, greens and even from wheat germ. Cold press technology perfectly preserves all the vitamins and nutrients of fruit and vegetables. A unique induction motor provides a very quiet operation, transforming the juicing process into a real pleasure. Our juice maker can also make various jams, desserts, sauces and puree for baby food. You can find all the recipes in our recipe book, which is included in the kit.
