MG1310 MG2010

bon appétit

**FULL
PALETTE
OF FLAVORS**

With meat grinders Oursson MG1310 and MG2010, you will prepare all the necessary ingredients for your meals in no time.

They not only look great, but also perfectly cope with any different task. They will help you prepare mince from any meat, make sausages or burgers, chop vegetables and fruit, and even grate cheese. Each grinder includes a large number of nozzles and plate discs with holes of different diameters.

You won't be annoyed by constantly trying to remove stuck ingredients - meat grinder will come to your aid. Simply click "Reverse" and the auger will push everything that prevents the proper operation of the device out. Meat grinder is also equipped with overheat protection, that will help your device stay longer in working condition. A colorful recipe book, specifically designed for this device, is included.
