DH0620D

bon appétit

FULL PALETTE OF FLAVORS

Do you need to preserve food, so that it remains healthy and nutritious? Dehydrator Oursson DH0620D - will perfectly cope with this task. Digital control will set the correct temperature from 35 up to 70 ° C, and will show the time, required for the dehydrogenation process. The device is made of safe BPA Free ABS plastic, has 6 roomy trays of different heights for drying and 4 fermentation tanks. The cooking process of your food is simple, does not require the attention, without taking much time. During fruit or vegetable drying excessive moisture evaporates, while the structure of cells remains intact, the products retain their natural color, flavor and aroma, vitamins, minerals and enzymes.

Color

Green apple
Orange
