Silicone molds and accessories

Temperatures | Dishwasher | Ovens | Microwave ovens | Freezer | Food

ECOLOGIC

Silicone — an environmentally friendly natural material that does not emit harmful substances when heated or cooled. Does not react chemically with the products, does not absorb odors and is easy to clean.

PRACTICAL

Dishes made of silicone have high heat conductivity, excellent non-stick properties, it does not break and does not scratch, and it's highly space-efficient. Perfect for ovens, microwave ovens, freezers and multicookers.

COMPREHENSIVE

Bright, colorful silicone molds and accessories will brighten up the kitchen's environment and make the process of cooking a fun and interesting pastime. Prepare meals in the form of hearts, stars, bears... you name them!

Cooking molds

Silicone molds with leads are ideal for cooking fish, meat, vegetables and deserts without adding oil. Silicone keeps all aromas and makes food soft in a short period. Unique design allows food to cook on steam in its own juice. You can use the molds in ovens, microwaves and store them in the fridge. Folding, they do not occupy much space. A recipe book is included, which will give you ideas so you can enjoy diet meals every day.

Accessories

The outer layer of our accessories is made of silicone - a natural non-stick material. Our silicone accessories can be used when cooking on any kind of material. They withstand temperatures from -20°C to +220°C. We recommend using them when working with silicone molds and cookware with Teflon coating.
