## FULL PALETTE OF FLAVORS

Bright modern citrus juicer JM1001, due to its high capacity it is easy to prepare juice, from small limes and lemons and grapefruits and oranges. Juicer is simple in handling, easy to disassemble and clean. The device has a reliable and durable mesh-stainless steel filter. Two types of cones in the set are intended for different types of citrus fruits. For juicing, it is enough to cut the fruit in half and to slightly press one half of fruit against the cone. Juice automatically pours directly into the glass. With a convenient spout with "drop-stop" system, juice won't spill on the table. Reduce the pressure on the cone and the juicer will automatically turn off.

### Color

### EAN-code

Green Apple	7640152891816
Red	7640152891823
Orange	7640152891809

### Features:
