PALETTE series

**FULL
PALETTE
OF FLAVORS**

Diamond in your kitchen... Kitchenware with DIAMOND non-stick coating of PALETTE series is the best way to cook aromatic and delicious dishes. The bright red color of the kitchenware and the original picture on the inner surface makes it even more colorful and attractive. Kitchenware is made of high quality cast aluminum, does not contain harmful chemical additives, has four layers of non-stick coating with nano-diamond crystals. Induction bottom allows to use it on any surface, including induction cookers. Such kitchenware will serve you for many years and will always delight its owner!

DIAMOND NON-STICK COATING

The use of nano-diamond crystals in DIAMOND coating makes it very durable and provides thermal conductivity. The coating does not harm human body and is eco-friendly. It is very durable - resistant to mechanical stress and heat-resistant. Easy to wash.

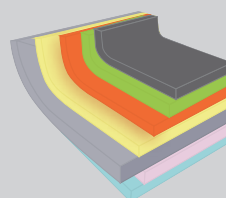

Contains no dangerous composites such as lead, perfluorooctanoic acid and cadmium

Ecological

Low levels of carbon emissions

- Top Coating + Nano diamonds
- Diamond Design + Nano-diamond
- Mid Coating
- Prime Coating
- Aluminum Body
- Double-layer exterior coating
