PALETTE series

**FULL
PALETTE
OF FLAVORS**

Kitchenware with a big heart... Kitchenware with a non-stick 3D coating of PALETTE series is the best way to cook for your loved ones. Beautiful dark cherry color and the pattern in the form of a big heart on the inside gives it an unusual and original appearance. Kitchenware is made of high quality cast aluminum, does not contain harmful chemical additives, has a six non-stick 3D coating layers with nano-reinforced particles, nano-diamond crystals and ions. Induction bottom allows to use it on any surface. Loving housewives must have, not only practical, but also beautiful kitchenware!

3D NON-STICK COATING

3D non-stick coating contains nano-fortified particles and nano-diamond crystals. These particles make the coating stronger and provide 3D (holographic) effect on the surface. It is very durable - resistant to mechanical stress and heat-resistant. Easy to wash.

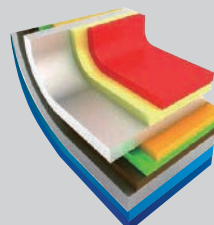

Contains no dangerous composites such as lead, perfluorooctanoic acid and cadmium

Ecological

Low levels of carbon emissions

- Top Coating + Nano diamonds
- 3D Nano Reinforced Particles Coating
- Mid Coating
- Anion (Negative ion)
- Prime Coating
- Anodizing Reinforced Surface
- Aluminum Body
- Double-layer exterior coating
